Art Start

Press GO on your child's journey with art. Young artists engage with shape, colour, pattern, and culture, while working with watercolours, tempera paint, oil pastels, chalks, and paper.

Cartooning

From the depths of your imagination to the blank page, create a character worthy of comic books. Young artists design cartoon characters, backgrounds, animals, and monsters using pencils, pastels, markers, and paper cut-outs.

Classical Animation

Bring your drawings to life with animation! From sketchbook to screen, young artists learn basic software skills to create digital animated masterpieces.

Digital Photography

Snap photos with know-how. Discover manual camera features such as aperture, shutter speed, and ISO, and apply that knowledge to take photos that unveil your unique artistic expression.

Drawing & Painting

Get inspired by abstract concepts or still life, and release that energy into new interpretations! Young artists hone their visual perception through the study of composition, design, colour, and art history, then apply their ideas to the page using charcoal, oil pastel, tempera, chalk, and pen and ink.

Dress Up Drama

Open a "tickle trunk" into the land of imagination! Stories from around the world provide a backdrop for kids to play fun theatre exercises. Beyond the excitement, children discover self-confidence and learn to work together with new friends.

Fine Art of Hanging Out

Grab a backpack and explore Vancouver with an artist's eye! With packs fully stocked with art supplies, and the van ready to go, students create artworks en-plain-air (in the open air) at places like the beach, parks, museums, galleries, or artist studios.

Graphic Novel & Comic Creation Intensive

Create your own comic! In this intensive, kids will create a graphic novel from start to finish, from character design and scriptwriting, to drawing technique and composition. Using pencils, paper, and brush pens to draw, students will then scan their completed work to set it up for print to bring home a unique creation!

Children learn technique, the relationship between the physical body and music, and ways of relating to one another and the world.
