CORPORATE TEAM BUILDING AT ARTS UMBRELLA

Bring your team together through creativity and connection at Arts Umbrella. Hosted in our inspiring building on Granville Island, this two-hour, guided art workshop is designed for corporate groups seeking a unique, hands-on, and engaging team-building experience.

Led by a professional Arts Umbrella instructor and welcoming to all skill levels, the session provides a relaxed, thoughtfully curated environment where teams can collaborate and create together. All materials are provided, making it a seamless addition to any client event, offsite, or corporate gathering. Participants leave with creations they've made, a fresh perspective, and a renewed sense of connection.

WHAT TO EXPECT:

Inspired by a typical art class at Arts Umbrella, each session begins with a group demonstration, followed by individual work supported by one-on-one mentorship from the instructor.

The class focuses on drawing and painting from observation, incorporating still life studies and exploring multiple drawing media and techniques. Opportunities for optional collaborative or group work are also included.

The workshop concludes with dedicated time for sharing work and reflecting on the creative process.

WHY TEAMS LOVE THIS EXPERIENCE:

Because art makes us better humans. At Arts Umbrella, we value the power of creative expression, and believe the skills learned in an art class extend far beyond the classroom. In addition to your artwork, participants also leave with these key takeaways:

- Comfort with ambiguity and strengthened creative problem-solving skills through risk-taking and experimentation.
- The ability to make connections and imagine new ways to communicate familiar concepts.
- Enhanced ability to imagine new possibilities.
- Developed skills in giving constructive feedback, receiving it positively, and fostering empathy through critique.

Packages starting at $750.00
